

# Turn Any PDF Into an AI-Powered Knowledge Assistant

Ask questions in plain English, get accurate answers with page references.

# Phase 1: Document Preparation

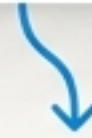

Breaking down your PDF for AI processing

## 1. Upload Your Document

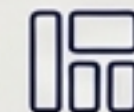

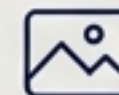

Simply provide your PDF – any size, any language. The process is the first step in building a foundation for **Knowledge mining**.

Supports multi-page documents

## 2. Intelligent Extraction

The system separates your document into its fundamental components for processing.

# Phase 2: AI Understanding

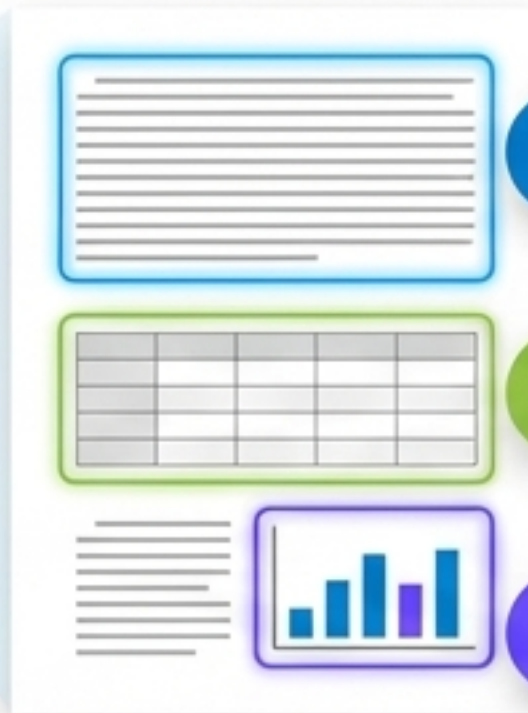

3/6

Teaching AI to read and organize like an expert.

## 3. Azure AI Reads Everything

Advanced AI identifies and understands document elements:

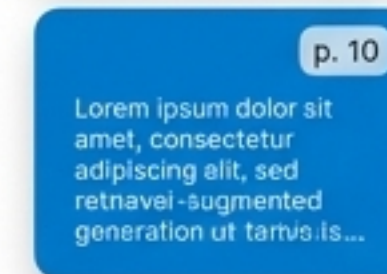

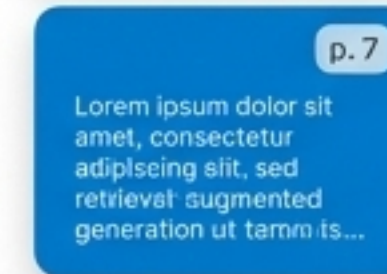

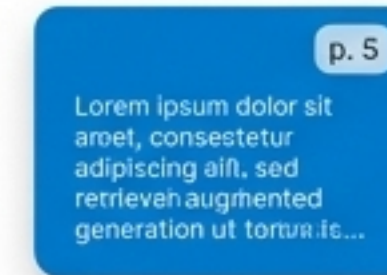

P Paragraphs

T Tables

^F Figures & Charts

Powered by Azure Content Understanding in Foundry Tools

## 4. Smart Organization

Content is organized into meaningful, searchable sections, ready for retrieval-augmented generation (RAG) workflows.

“ **Why This Matters:** Like a librarian who knows exactly where every piece of information lives.
